

How can you reactivate your O365 access each year?

Oct 25, 2020

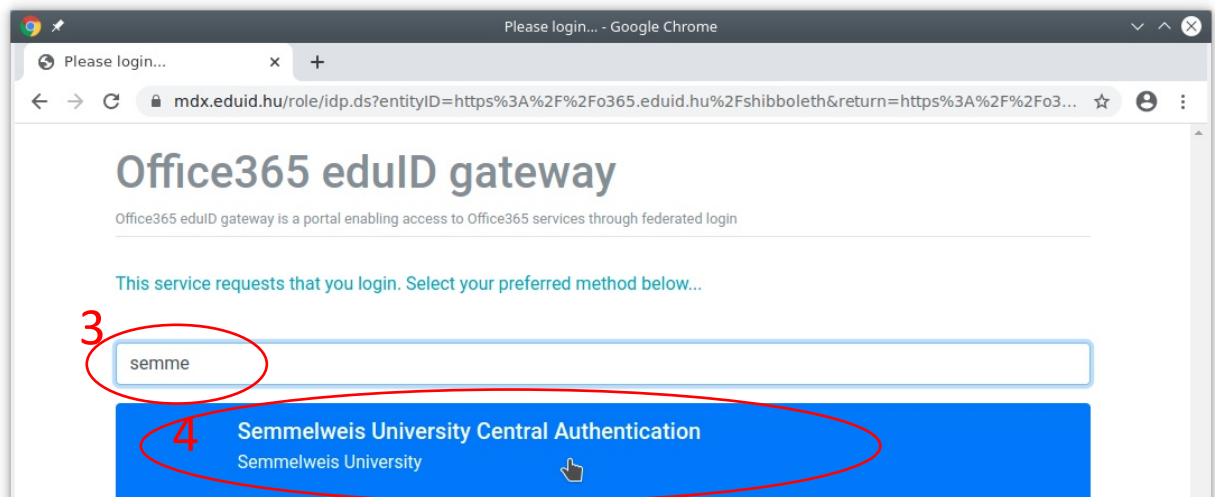

Step 1: Enter this address into your browser: o365.eduid.hu

Step 2: Click on "Login" on the right hand side

Step 3: Choose Semmelweis Univ (start typing semmelweis, and it shows up)

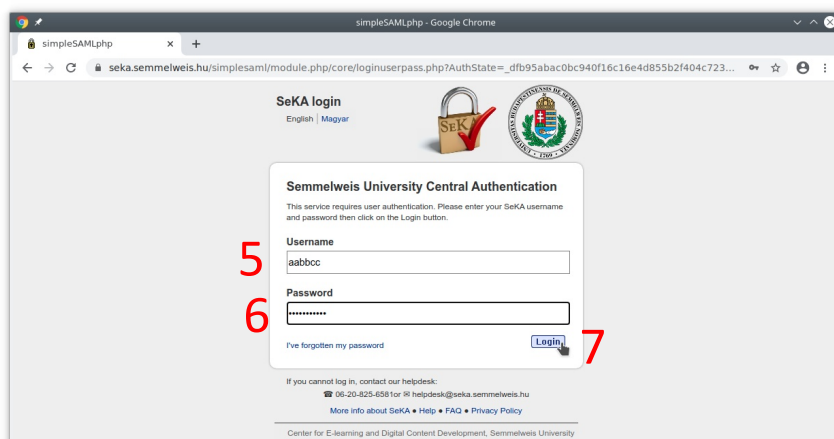

Step 4: Click on "Semmelweis University Central Authentication"

Step 5: Type in your SeKA login name (it is the same as your Neptun ID)

Step 6: Type in your SeKA password

Step 7: Click on "Login"

After a successful login, you will see your name in the upper right corner, and lower in the “User info” box you have:

- your name
- your university e-mail address
- the type of your licence
- the expiration date of your access (day, month, year)

If everything is fine, the expiration date of your access is October 30 of the **next** academic year.

The screenshot shows the 'Cloud 365 for eduID' user center dashboard. The browser address bar shows 'o365.eduId.hu/user'. The top navigation bar includes 'About', 'Services', 'Get Office', and a user profile dropdown for 'Tanuló Anna S.'. The main content area features a 'User center' header with a welcome message and a 'Dashboard' button. Below this, there are sections for 'Office 365 services' (Office 365 portal, OneDrive digital storage, SharePoint sites, Download Office, Outlook webmail, Schedule Lync meeting) and a 'User info' box. The 'User info' box displays the user's name, email address, role ('student'), and expiration date ('30. 10. 2021').
